Poor Pluto. Disheartened that after decades together he can no longer call himself a planet along with Earth, Mars, Jupiter, and the others, he sets off with four moon companions and a wee suitcase, his expressive eyes wide open. Join him on his quest to find a place to belong while learning what makes planets, comets, asteroids, and meteoroids unique in a delightful and accessible take on the redesignation of the Kuiper Belt's most controversial orbiter.

PALLAS GATES MCCORQUODALE (July/August 2018)
