

Animal Antipodes: Global Opposites

Carly Allen-Fletcher

Creston Books (Sep 3, 2018)

Hardcover \$17.99 (32pp)

978-1-939547-49-1

The condors of Santiago, Chile, are to the pandas of Xi'an, China as the polar bears of the North Pole are to the penguins of the South Pole: they are animal antipodes, meaning they are pairs of animals that reside exactly on opposite sides of the Earth from one another. Explore this world of amazing creatures and their geographic counterparts through layered, geometrically-influenced illustrations that showcase an array of creatures and their unique habitats.
