

## Origins of a Story: 202 True Inspirations Behind the World's Greatest Literature

**Jake Grogan**

Cider Mill Press Book Publishers (Oct 17, 2017)

Hardcover \$24.95 (304pp)

978-1-60433-751-8

Stories have stories, and when these stories are about stories like *To Kill a Mockingbird* or *Frankenstein* or *Lolita* or *Charlotte's Web* or another classic, beloved novel, those stories take on great meaning.

Of *Infinite Jest*, in an interview with *Salon*, David Foster Wallace said that after the funny and heavy, intellectual writing he'd done over the years, he

wanted to do something sad ... about what it's like to live in America around the millennium ... There's something particularly sad about it, something that doesn't have very much to do with physical circumstances, or the economy, or any of the stuff that gets talked about in the news. It's more like a stomach-level sadness.

And, knowing that, suddenly his novel changes in our memories.

Of *Rabbit, Run*, in an interview with the National Book Foundation, John Updike said

I suppose I could observe, looking around me at American society in 1959, a number of scared and dodgy men. And I felt a certain fright and dodginess within myself. This kind of man who won't hold still, who won't make a commitment, who won't quite pull his load in society.

This is the manner of captivating material Jake Grogan has compiled in *Origins of a Story*. If you've wondered how your favorite masterpieces got their starts, the itch can now be scratched.
