From the beginning of his day to the end, Tony faces problems: no breakfast left for him, a crowded car ride to school through a hurting neighborhood, adults who misunderstand him, a possible confrontation with a bully. Through it all, Tony keeps his cool, telling himself to “focus on the good, laugh away the bad, and never forget that it could always be worse.” His steady ways are appreciated by his friends, who come through when he most needs them.

This story teaches resilience and self-regulation, character traits that assist children in surviving and overcoming adversity.
