

Science Ideas in 30 Seconds: 30 Breakthrough Theories for Junior Geniuses Explained in Half a Minute

Mike Goldsmith

Melvyn Evans, Illustrator

Ivy Kids (May 10, 2018)

Softcover \$9.99 (96pp)

978-1-78240-609-9

In this crash course in some of the greatest scientific theories and breakthroughs in ancient history and modern times, accessible explanations of everything from atoms and cells to chemical reactions and nuclear energy are organized for quick reference. Complicated concepts are made clear with thirty-second breakdowns, three-second sum-ups, and colorful illustrations that will give students of any age the confidence to join in discussions or spark original ideas for future experiments and revolutionary thinking.

PALLAS GATES MCCORQUODALE (July/August 2018)
