A mother bear and her two young cubs awaken one cold morning in their den and venture out into the wild, capturing the spirit of the national park, in *Seasons of the Bear: A Yosemite Story*, from Ginger Wadsworth. The snows of winter, hungers of spring, summer tourists, and autumn forest fires are no match for the indomitable strength and majesty of the American black bear. Thoughtful paintings from Daniel San Souci complement the straightforward narrative, gracefully showcasing the blend of both bear and human inhabitants, while an array of fun facts shared in the author's note are a welcome addition for campers, park rangers, naturalists, and wildlife enthusiasts of all ages.
