Judy Gauthier's *Tantalizing Table Toppers* includes over two dozen designs for projects that are stylish and achievable, ranging from farmhouse chic to contemporary to dinner party elegant.

The book's designs and instructions cover twenty table runners and four place mats, as well as guidelines for dinner-sized and cocktail napkins, both reversible and not, with tidy, mitered corners. Full-color photographs show each project in its finished form.

The book's instructions are clear, set in a single column, and easy to read, covering each step of the process in uncomplicated terms. They pay attention to both assembly and finishing steps. Measurements for the finished projects are included, along with measurements and numbers for their pieces; these can be cut from various colors, making it possible to customize projects without laborious calculations.

Most of the project designs can work for more than one style and color scheme, and many of the book's runners employ a repeated motif; their basic pattern could be extended to make other items, including quilts, crib blankets, and throws. Single motifs could also be scaled for pillows or place mats.

These projects impart a workshop's worth of quilting and piecing skills, along with helpful advice on how to get projects right, including how to applique, work with curved pieces, and incorporate different fabrics for three-dimensional effects. Professional tips for adding embellishments like rick-rack, reverse-side ironing techniques, a short course in color theory and using a color wheel, and instructions for assembling an ombre mosaic with subtle shade and hue variations are also included.

Tantalizing Table Toppers is a bright and appealing crafting book that packs knowledge and inspiration into its projects, all of which are within every crafter's reach.
