From Columbus's journey in 1492 to seventeenth-century slave ships, the infamous *Titanic*, and present-day ocean-dwelling communities, the terrible majesty of the sea is celebrated through a collection of poems penned by a bevy of award-winning authors and poets, each with a unique voice and story. Striking mixed-media illustrations feature sailors, explorers, and refugees amid the starry skies and dark waves, conveying all the fluid strength and timelessness of the ocean.
