If you're on a need-to-know basis with the truth at its wackiest, if your idea of pleasure reading includes bizarre diseases, dumb crooks, and who holds the record for the longest shower, if you're dying to know the history of lava lamps and how they work, if you have a coffee table in your bathroom, the gods of publishing have now answered your prayers with this large-format, vividly illustrated celebration of "you've got to be kidding me."
