This self-aware picture book turns “The Three Little Pigs” on its head. A writer starts writing the traditional story but keeps being interrupted; the pigs and the wolf have other ideas for the plot, setting, and their characters. In the end, the foursome decides they don’t need the writer at all; they write her out in favor of their own high-flying happy ending. This charming title is a subtle primer on storytelling, introducing children to the essential building blocks of the craft.
